The CrowdStrike Falcon solutions proposed include a comprehensive security solution as illustrated below. CrowdStrike provides proven results with its solution while also augmenting customer environments with professional personnel to proactively search out threats before they become incidents (Overwatch). There are additional options to allow for a fully managed solution which includes the management, tuning, triaging of alerts, and remediation of incidents if desired. The Managed Detection and Response (MDR) offering, Falcon Complete, also comes with a Breach Warranty up to $1Million depending on size of environment. All partner API integrations (over 500 existing) are complimentary.
