One Platform. Three Reasons to Believe.

Best-in-Class Technology

Singularity™ sets the standard for modern security platforms with unparalleled visibility of what's on your network and enterprise-grade automation & control. Rich AI models enable every endpoint and cloud workload to autonomously prevent, detect, and recover from threats in real time.

Industry Recognition & Results

SentinelOne is a proud Leader in the enterprise security market. We have been recognized for our execution and innovation by authorities such as Gartner, and we consistently lead the pack in testing & evaluations conducted by firms such as MITRE Engenuity and SE Labs.

Measurable performance advantage

SentinelOne is committed to the success of our customers, from small IT shops to leading Fortune 10 enterprises; we know that the love is mutual from our 98% satisfaction rate. Teams everywhere trust our MDR & DFIR experts to block and eradicate some of the world's largest breaches.

Distributed AI

Equip every endpoint and workload—no matter their location or connectivity—to respond intelligently against cyber threats with powerful static & behavioral AI.

Storyline™

Empower analysts with the context they need, faster, by automatically connecting & correlating benign and malicious events collected over weeks to years in one illustrative view.
